Certification

Microsoft Certified:
Azure
Fundamentals

Skills

•**Programming Languages**: C#, SQL, MySQL, JavaScript, TypeScript

•**Frameworks**: .NET, ASP.NET, CQRS, Mediator, Repository pattern, React

•**Tools & Technologies**: Azure, Azure Devops, Github Actions(CI/CD), Git, Tailwind css, Vite

•**Testing**: Unit Testing, Intergration Testing

•**Methodologies**: Agile, Scrum, Clean Architecture, Clean Code

Tech

Experience (4+Years)

- INFINET CODE AB
Fullstack Developer + DevOps
Feb 2024 – Now

•Implemented Clean Code and Clean Architecture principles to ensure high-quality, maintainable code and a robust software architecture.

•Leveraged Azure cloud services for deployment and scalability.

•Utilized GitHub Actions for CI/CD to automate testing and deployment processes.

• Developed complex frontend components using React and TypeScript.

•Used Tailwind CSS for effecient and responsive styling.

•Engaged in mentoring activities to share expertise with junior developers, fostering a culture of continuous learning and improvement within the team.

- COOLTECH SOLUTIONS AB
Fullstack Developer
Jan 2022 – dec 2023

•Developed dynamic cross-platform web and mobile applications using React Native and Angular, ensuring seamless functionality across iOS and Android devices.

•Styled applications with Tailwind CSS, enhancing design and usability for both mobile and web interfaces.

• Built and maintained backend services with .NET ASP.NET Web API, ensuring robust and scalable architecture.

•Integrated Stripe Gateway for payment processing, including full Swish integration via Stripe to accommodate localized payment needs

•Implemented user management and authentication using Firebase for secure and efficient user access control.

•Utilized Hangfire for background tasks and scheduled jobs, optimizing the performance of asynchronous processes.
